PROFILE

Full-stack product engineer who builds web and mobile products end to end, from the business problem to the shipped app, since 2022. I work in TypeScript, React, Next.js, Astro, React Native (Expo), Node.js and Supabase/Postgres. I use AI agents (Claude Code) as leverage and keep the decisions and the verification: tests, accessibility and performance checks on every change.

EXPERIENCE

June 2026 – now

Intern, Cetuspro

Software house, remote

- Real commercial projects; built the public configurator of PstrykWeb, the online order form (Next.js, TypeScript, Vercel).

2026 · 6 weeks

Intern, Neoteric

Software house, Poland

- Built Clockful, a role-based time tracker, with AI agents only, from a spec of 15 requirements in about 9 days (an estimate from the repo dates).

2025 · 1 month

Intern, KS Beniaminek 03

Sports club

- Social projects at a sports club: work with people, communication and teamwork.

Since 2022

Freelance and own projects

- Landing pages for businesses and organisations, such as a 3D site for Youth Work Synergy, a youth housing nonprofit in Luxembourg (React, React Three Fiber, GSAP).
- A mobile app for a local youth space; the principal of my technical secondary school gave me an award for it.

yws.lu

SELECTED PROJECTS

2026

PstrykWeb

In collaboration with Cetuspro

- Bespoke websites for local businesses, ordered through one online form.

pstrykweb.pl

2026

Linkoglot

Own product, founder and developer

- Designed, built and shipped an AI language-learning app to the App Store and Google Play, solo: snap a photo to get flashcards, quizzes and voice practice.
- Free trial, then monthly or yearly plans through RevenueCat; 30 languages with Lingui (Expo, React Native, Supabase).

App Store Google Play

2026

Portfolio

- Astro, React and Lingui (en/pl/es); Lighthouse mobile 99–100, about 8 KB of JavaScript; built with a Claude Code setup: a project wiki, hooks and skills.

SKILLS AND QUALIFICATIONS

Soft skills

- **Teamwork and clients** — Software houses, hackathon teams
- **Problem solving** — From business problem to shipped app
- **Business thinking** — Solutions measured by business results
- **Conversions and UX** — How people notice, trust and act
- **User psychology** — Consumer psychology and UX courses
- **Analytical thinking** — Marketing planned around goals and data

Technologies

- **Web:** TypeScript · React · Next.js · Astro · Tailwind CSS · shadcn/ui · WebGL
- **Mobile:** React Native · Expo
- **Back end and data:** Node.js · Supabase · PostgreSQL · TanStack Query
- **Quality and UX:** Playwright E2E testing · Lighthouse MCP · Mobbin
- **AI and workflow:** Claude Code · GitHub · GitLab · Vercel API

2024

INF.03 · Polish state vocational exams (CKE / OKE)

Websites, web applications and databases.

2026

Hackathons · Team events

HackYeah 2026 in Kraków, Europe's biggest on-site hackathon; Hack4Change 2026 in Gdańsk, 48 hours for the Baltic Sea; Product Challenge 2026: Vibe the Future in Rzeszów.

Made me better at working under time pressure and in a team.

2024–2025

International youth projects · Erasmus+, European Solidarity Corps, Visegrad Fund

Digital youth work in Latvia, youth entrepreneurship in Lithuania, alternative youth participation in Bakuriani (Georgia), two months with sea turtles in Demre (Türkiye).

Made me fluent in communicating with people, especially in English.

2025

Three.js Journey · Course by Bruno Simon

90+ hours of video and challenges: WebGL with three.js, GLSL shaders, physics, Blender models, post-processing, performance and React Three Fiber.

2023

Full-stack development courses · Courses by Jonas Schmedtmann, Udemy

The Complete JavaScript Course 2023: From Zero to Expert! · Sep 2023 · 68.5 h
The Ultimate React Course 2024: React, Redux & More · Dec 2023 · 67 h

EDUCATION

In progress

Programmer technician

ZSE Starogard Gdański, technical secondary school

- Also taking the IT technician vocational qualification course (KKZ) at the same school.

LANGUAGES

Polish: native
English: fluent

INTERESTS

Calisthenics · travel · motorcycles · films · music of every kind · gaming with friends
